Hi Sherry,

Yes, I have questions so a meeting might be helpful. For example, how long will the Registry have a hosting environment with AWS? I thought that USA.gov had made the decision to kick the Registry off their platform and that the Registry would have to find a new hosting platform. Do you have an estimate of how much of Justin Raine's time might be needed to help REI transition the Registry to AWS? My calendar is up to date and please include Richard G. Brooks (Gray Brooks) in the invitation, as he has kindly been helping us with revisioning options for the Registry.

Thank you,  
Natalie

On Tue, Dec 17, 2019 at 2:33 PM Sherry Hsu - ICPW <[sherry.hsu@gsa.gov](mailto:sherry.hsu@gsa.gov)> wrote:

Hi Natalie,

We are currently transfer all the applications from CTAC hosting to REI hosting enviroment. Because there will be less support from CTAC hosting, so we would need the knowledge and support more from the application development team. Since OPP group manage the SMR development, could you task Justin Rain from your contract in order to support SMR hosting transition?

The knowledge transfer will include the working sessions to helping REI understand the application from both business and technical overview; the current hosting support processes; the key setup points in order for REI to set the same configuration as current..etc.

Please let me know if you like to talk to us in order to understand more about this transition. I can help to set the meeting. Just let me know your preferred times.

Thanks,  
Sherry

I want to be clear we are not requiring you to find an alternative hosting solution. We are full prepared to continue providing you with service and have included your transition hosting option in the new REI contract.

We would need to discuss cost if SMR funding isn't included in the funds we already received from OPP

Thanks

Sure. I just sent a meeting invitation for tomorrow afternoon 3:30pm.

Also, below is some answers to your questions:

**How long will the Registry have a hosting environment with AWS?**

The current hosting contract out of service ends at early March. However, all the applications need to transitioned from the environment no later than end of Feb. We strongly suggest the applications complete the hosting transitions by the end of January.

**SMR will find a new hosting platform**

Yes, that's also my understanding which TTS will provide a new hosting platform. I was waiting for TTS or OPP contact me about the new hosting information, so that we can help providing the files and data dumps...etc

**Do you have an estimate of how much of Justin Raine's time might be needed to help REI transition the Registry to AWS?**

Well, it has to see how is first KT session REI with Justin Rains. So, at least 2-4 hours first week.

Sure. I just sent a meeting invitation for tomorrow afternoon 3:30pm.

Also, below is some answers to your questions:

**How long will the Registry have a hosting environment with AWS?**

The current hosting contract out of service ends at early March. However, all the applications need to transitioned from the environment no later than end of Feb. We strongly suggest the applications complete the hosting transitions by the end of January.

**SMR will find a new hosting platform**

Yes, that's also my understanding which TTS will provide a new hosting platform. I was waiting for TTS or OPP contact me about the new hosting information, so that we can help providing the files and data dumps...etc

**Do you have an estimate of how much of Justin Raine's time might be needed to help REI transition the Registry to AWS?**

Well, it has to see how is first KT session REI with Justin Rains. So, at least 2-4 hours first week.

Sherry

Hi Sherry,

Yes, I have questions so a meeting might be helpful. For example, how long will the Registry have a hosting environment with AWS? I thought that USA.gov had made the decision to kick the Registry off their platform and that the Registry would have to find a new hosting platform. Do you have an estimate of how much of Justin Raine's time might be needed to help REI transition the Registry to AWS? My calendar is up to date and please include Richard G. Brooks (Gray Brooks) in the invitation, as he has kindly been helping us with revisioning options for the Registry.

Thank you,  
Natalie

Hi Natalie,

We are currently transfer all the applications from CTAC hosting to REI hosting enviroment. Because there will be less support from CTAC hosting, so we would need the knowledge and support more from the application development team. Since OPP group manage the SMR development, could you task Justin Rain from your contract in order to support SMR hosting transition?

The knowledge transfer will include the working sessions to helping REI understand the application from both business and technical overview; the current hosting support processes; the key setup points in order for REI to set the same configuration as current..etc.

Please let me know if you like to talk to us in order to understand more about this transition. I can help to set the meeting. Just let me know your preferred times.

Thanks,  
Sherry

Gerard,

I am back from travel and catching up on everything.

I'm following up on some of your questions:

MongoDB:

- No longer used
- Oracle:

- Not used in the platform (only for developers processing data from on prem GSA systems)
- Licenses:

- Splunk
- Sophos
- New Relic

- Obviously REI can purchase similar licenses for whatever software they are using for your new system to meet any requirements to obtain an ATO.

EC2 volumes:

- They are encrypted. I would recommend REI do the same (per encryption at rest best practices) assuming they are implementing an AWS based system.
- SSP

- CTAC did not write the majority of the SSP. But as it was recently approved by GSA, I assume it meets all of GSA's needs between now and the end of our contract in a few weeks.

Provide S3 bucket access:

- Yes. We can provide S3 access to [GSA.gov](https://www.gsa.gov) and [USA.gov](https://www.usa.gov) static assets. I believe you already have access. Please let Doug or I know who else needs access.

Most of the other items on your list relate to a transfer of platform knowledge, processes, etc. that allow CTAC to provide a competitive industry leading solution for the Federal government.

Obvious concerns I have are:

- (1) As a small business we cannot afford to give away our competitive advantage (such as training a large business how to do what CTAC does best).
- (2) Contractual scope/funding.

I don't know what REI proposed or what their transition plan is, but at the end of our contract in January we can provide a push to a S3 bucket (or provide an encrypted DVD) of the data dumps, drupal code, and static assets required for REI use on a new system. With more details I would be happy to provide high level advice on a schedule for data transfers as REI builds, tests, ATOs, and migrates data to your new system.

All the best.

I am hoping you have had a chance to review the follow up from our meeting I sent yesterday. We would like to start making the necessary requests and need to know if there are any concerns with our moving forward.

Thank you for your attention.

Thank you for taking the time to meet with us last week. As a follow up to our 11/26 meeting please find attached the topics we discussed and need your assistance on. Also, we will be able to provide a more detailed transition plan as proposed from REI this week so you can better understand the approach and areas where we will need your team's participation. If you could provide a response or indicate who we can work with on these it will be greatly appreciated.

Again, thank you for your time and attention.

Hi (b) (6)

I've already had this conversation with Doug. He is okay with it. So, please come to the meeting.

See the conversation in the attachment.

Sherry

Hi Sherry,

Doug told me that any technology transfer related activities were to be coordinated through him.  
I'm sorry but I have heard no hing from him about this, and will need marching orders from him before moving forward.

Hi Jeff,

Today at 11am, there is a [USA.gov](https://www.usa.gov) overview meeting which is the kick off meeting to start [USA.gov](https://www.usa.gov) REI transition. We invite you since we need your help on [USA.gov](https://www.usa.gov) application knowledge. I've already notified Doug yesterday and get his okay for you to join the meeting. So, we expect to see you in 30 mins.

Thanks,  
Sherry
